

OPEN BIOLOGY

royalsocietypublishing.org/journal/rsob

Open access journal publishing high impact biology at the molecular and cellular level.

Open Biology publishes original, high quality, peer reviewed research. New article types include Open Questions which highlight underfunded and understudied areas of biology, and Methods and Techniques.

The journal continues to develop, with the appointment of subject editors in Cell Biology, Microbiology, Neuroscience and Immunology and Genetics. A preprint editor and preprint team have been appointed to increase disciplinary breadth of the journal and accelerate peer review.

Features Include:

- immediate open access: fully compliant with funder and institutional mandates
- rapid publication in a Royal Society journal
- rigorous and constructive peer review
- continuous publication model, which allows immediate citation of articles
- publisher deposit of articles in PubMed Central
- supports submission of manuscripts via bioRxiv.
